MARS GAMING

MGL2 GLASSES

Mars Gaming MGL2 have been especially designed for gamers. Their yellow lens protect the eyes from the damages of blue light, reducing eye strain and dry eyes caused by many hours in front of the screen. The special lens improves contrast and increases clarity after long gaming sessions.

These MGL2 are the perfect choice for those gamers who wear prescription glasses. Due to its design, with square frame, MGL2 can be used above prescription glasses.
